

EHS Sustainability

KICK START YOUR  
**SUSTAINABILITY PROGRAM** WITH

**PURE™** Sustainability - Essentials

# EVERYTHING YOU NEED, NOTHING YOU DON'T

Designing a sustainability program from scratch can be challenging for businesses of all sizes. If you're not sure where to begin, let us help. Our award winning sustainability platform is now available as an out-of-the-box solution. We've answered the tough questions for you so that you can hit the ground running.

## COLLECT

Gather data from across your organization on the most common KPIs

## CALCULATE

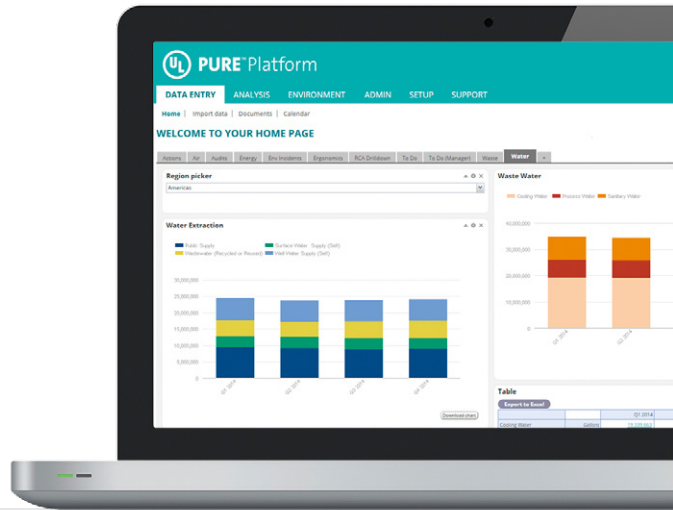

Track your emissions against our standard library of factor sets

## REVIEW

Review data trends in easy to share reports and dashboards

# OUR SOLUTION

PURE™ Sustainability - Essentials makes it easy to collect reliable data across your whole organization, whether you collect data centrally or delegate it worldwide. Designed as an easy to deploy, low cost model of our award-winning software suite, everything you need for GRI and CDP reporting is included. PURE Sustainability - Essentials gives you the starting points needed to run a successful sustainability program without the guess work.

## KEY BENEFITS

- Our software is quick to deploy, easy to set up, and lower cost to implement.
- Verdantix, an independent industry analyst firm, rated PURE Sustainability software 3/3, highlighting UL's expertise and 15 years of experience in the industry.
- The package has been designed by UL's sustainability experts to get your program up to speed immediately.
- This standard setup uses the same software that our award-winning global clients trust for their sustainability data collection and reporting.
- As your sustainability program grows, you are supported by a scalable platform to support all your performance management needs.
- Flexibility is a key feature of this software – new users, locations, and indicators can be added by administrators, additional modules can provide further benefits, and UL is always available to help you enhance your platform.

A Closer Look at **PURE™** Sustainability - Essentials
